

An update regarding COVID-19 and Tempo Communications as an “Essential Business”

To our Valued Customers,

As a California based company and considering the recent statewide mandate to “shelter in place,” we want to reach out again to provide an update on the COVID-19 virus. Be assured that Tempo Communications is fully operational and working hard to exceed your expectations! According to the Department of Homeland security, our business operations are deemed “essential,” as they fall into the Critical Manufacturing Sector (under Electrical Equipment, Appliance, and Component Manufacturing) as well as the Defense Industrial Base Sector.

As we have seen, things change quickly, and we are in uncertain times. We are committed to maintaining open communication and transparency with you as we work together to weather this storm.

This is an unprecedented time for us as a country and us as a company in the telecommunications sector, Tempo is determined to work diligently to keep our nation’s communication infrastructure up and running!

If there is anything we can do to assist during this time, feel free to reach out via email at sales@tempocom.com or phone at 800-642-2155. Tempo is here for you and we appreciate your ongoing partnership.

Best Regards,
Tempo Communications
